DESCRIBES WEAPONS, TANK-ASSEMBLY PLANT AT DIOSGYOR

A tank assembly plant of the Diosgyor Steel Works is located in the Tatararok, a narrow wooded valley situated at an altitude of 400 meters near Diosgyor, between Illafured and Gorombolytapolca. The assembly plant, completed in the summer of 1949 is 200 meters long, 80 meters wide, and 30-40 meters high. Its machine installations were completed in the summer of 1950.

Approximately 1,000 men are employed at the plant, assembling tanks. Cannon-boring towers have been erected at the same site, in which World War II German-type cannon are being manufactured, with Russian names. Even representatives of the director of the Diosgyor Steel Works are admitted to the Tatararok valley only with special permission.
